

The Aeroacoustics Specialists' Committee of the CEAS (Confederation of European Aerospace Societies) is preparing its 7th workshop with a support by X2-NOISE (a thematic network of the European Commission) and by AIAA on "Aeroacoustics of Supersonic Transport". A session will be devoted to "Sonic Boom Mitigation". This workshop will be held in Prague (Czech Republic) on November 13-14, 2003. Unfortunately the date is in conflict with the FAA/DARPA meeting on the QSP. Official information (and proceedings after the meeting) can be found on the web site :

http://acs.feld.cvut.cz/workshop/ceas_workshop_7

The local organizer, Prof. Ondrej Jiricek, can be contacted at :
